DETAILED ACTION

Response to Arguments

1. Applicant's arguments, see Remarks (page 7), filed 2/12/2007, with respect to claims 1-14 and 17-22 have been fully considered and are persuasive. The rejection of claims 1-14 and 17-22 has been withdrawn.

Allowable Subject Matter

2. Claims 1-14 and 17-24 are allowed.

3. The following is an examiner's statement of reasons for allowance:

* Rejected claims have been amended to overcome the rejection under 35 USC 101;

* Rejected claims 15 and 16 have been cancelled to place the application in allowable condition;

* The present invention provides a new method, apparatus and computer readable medium for reducing image data wherein the storage and the bandwidth required to transmit digital images are also reduced (specification, page 2, lines 21-22).

Particularly, the new method, apparatus and computer readable medium comprise the following features, which the prior art taken either singly or in combination does not teach:

- determining a first set of pixels... the third and fourth sets of pixels (see independent claims 1, 23 and 24);

- determining which pixels in a first row of pixels... along said second column (see independent claim 17);

- determining pixels of the image... along said adjacent column (see independent claim 20).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
